

Geological Field and Laboratory Technicians – Ottawa, Ontario

Overburden Drilling Management Limited (ODM) is seeking a Geological Technician to work in the field throughout Canada and in our laboratory in Ottawa, Ontario. ODM is a geological consulting company with a world-renowned, heavy mineral processing laboratory. Since 1974, ODM has been at the leading edge of using indicator minerals to explore for many mineral deposit types in Canada and throughout the world.

Responsibilities

The primary roles for the successful candidates will be:

- (1) Processing sediment samples (till and sand/gravel) for indicator minerals. Processing includes screening samples, shaking table operation, gold panning and heavy liquid separation. Microscope work will be required.
- (2) Short-term field assignments consisting of surface till sampling and reverse circulation drilling. In 2023/2024 ODM has plans to conduct field operations in Ontario, Quebec, British Columbia and Nunavut. Field assignments are occasional, subject to change and limited to about three to four weeks (or less) in duration.

Qualifications

The ideal candidate will have the following qualities:

- Enthusiastic about rocks *and* minerals.
- Attention to detail.
- Good penmanship.
- Willing and able to work overtime (>40 hours per week).
- Be in good physical condition.
- Capable of lifting and carrying heavy loads.
- Valid driver's license.

Contract Details

Primary location: Ottawa, Ontario
Start date: Immediate
Term: Up to a 1 year contract to start (probable extension depending on work load and work performance).
Salary: Starting at \$18.00 per hour for lab work. A special daily rate will be applied for field work.

Note: Students are welcome to apply for a shorter term.

Interested candidates should apply with a cover letter and resume to careers@odm.ca. **Please write "Laboratory Geotech Position" in the subject line of the email.** Only candidates selected for an interview will be contacted.
